

## RULES FOR DELIVERY OF COMPONENTS TO THE ORDERED SMD ASSEMBLY:

1. A complete set of components should be provided in accordance with the previously presented design or with list of components, together with an attached list of delivered components. If any component is missing or has not been delivered, it will be ignored in the assembly.

2. If there is any change in the assembly, please provide appropriate information in written or electronic form.

3. For any passive component such as: resistor or capacitor, if it is not possible to supply the tape with the components with the "starter", therefore, then the following should be added to the required quantity:

<1000 pcs.: 20-30 pcs. reserve

>1000 pcs.: 1-3% reserve

The minimum is 25cm of tape above the necessary quantity of to be ordered.

For a tape with a "starter", the components should be delivered with a reserve:

<1000 pcs.: 10-20 pcs. reserve

>1000 pcs.: 1-2% reserve

4. The Customer shall deliver the components in the form suitable for the machine. Any joined tapes or delivery in pieces is excluded. The components can be delivered in tapes, trays or sticks (but packaging for a given component type should be consistent).

5. Components delivered in bulk will not be used for assembly or their cost will be counted as manual assembly.

6. The components for the assembly must be delivered within 5 business days of confirmation of acceptance of the order.

If this time limit is not met, the assembly order will be automatically cancelled. Then a new order must be placed or individual postponement of the delivery date must be agreed.

*The above principles are required to offer you a professional and quick SMD assembly. Thank you in advance for your understanding and adherence to these principles.*

**DELIVERY OF COMPONENTS CONTRARY TO THESE PRINCIPLES WILL LEAD TO IGNORING THEM IN THE ASSEMBLY. EXCEPTIONS POSSIBLE ONLY AFTER PRIOR AGREEMENT!!!!!!!!!!!!!!**
